

WHAT IS POSITIVE ATHLETE?

Positive Athlete is the first and only national recognition program dedicated to celebrating high character high school student-athletes. These athletes inspire those around them with their positive attitude, making everyone they encounter a better person. They contribute to their schools or communities or have overcome significant personal challenges in remarkable ways.

High school coaches, teachers, administrators, parents and community members are invited to nominate student-athletes based on these critical positive characteristics. We honor these athletes through local, regional, and national awards, sponsored college scholarships, and exclusive benefits provided by corporate partners.
